

# The New Face of Local 469

The Tucson union meeting hall  
has a new look.

For the past few weeks, several apprentices have been hard at work enhancing the look of the hall both inside and out.

Some of the changes include: water  
correction repair

and painting of the kitchen area, new paint  
for the building's exterior and interior...

The buildings  
entry way was  
updated with a  
fresh coat of paint  
and new pictures

They also installed new shelving units in the vault, reworked the existing overhead storage shelves and painted the inside of the vault.

New overhead shelves.

New work area.

## Newly completed work area.

Even the office area received attention with newly assembled desks. "It looks a lot better," says Marsha. "Everything looks fresh," says Office Manager Marsha Giblin, "they did a really good job."

We would like to thank the following apprentices who dedicated their time and energy into the efforts of providing our Tucson hall with a new look. We greatly appreciate your contributions to our hall.
